About Us:

Gamuni Business Associates was established in 2019 when we saw the need for the provision of immaculate services at reasonable costs. We are 100% black owned and take pride in the quality of work we provide to all our clients. We cover a range of services and assist private and public sector as well as domestic households; we have completed various services for companies, complexes, estates and individual household units, these services inclusive of gardening, maintenance, irrigation, fogging and painting. We have managed to create a name for ourselves which is synonymous to the highest quality and value for money.

Our Promise

Our promise to all our clients is to commission and complete all projects on time and within budget. Our strong management competencies, managerial abilities on operations, public & labour relations as well as marketing will ascertain that your needs are catered for in both work execution and monitoring and reporting.

Our Vision

To be leaders in the services that we offer by not compromising on service delivery but by adhering to quality standards and becoming the first choice to our clients where issues of excellent service delivery at reasonable prices is concerned.

Our Mission

Our mission is to provide:

- the highest quality products and services;
- the most competitive prices.

Our Services

Provision of Gardening Services

Our provision of gardening services is of superior quality and we pride ourselves in excellent customer service. We always take time to advise our clients of the best possible routes to take in giving the best positive results in maintaining or improving the aesthetics of properties, office parks and complexes or estates.

Our focus is on major services such as landscaping as well as what could be seen as minor services such as gardening. Our gardening services include but not limited to:

- Landscaping services;
- Vegetation services;
- Lawn planting, revamp & maintenance;
- Pruning and trimming of shrubs and trees;
- Tree felling;
- Cultivation of flowerbeds;
- Removal of weeds and encroaching grass from all beds;
- Removal of all dead leaves that have fallen.

Maintenance Services

We assist office parks, residential complexes and estates by providing regular maintenance services in such properties thereby positively influencing the aesthetics.

Our maintenance services include, but not limited to:

- Rubbish bin collection and disinfection;
- Collect and dispose litter in the driveways, walk ways and gardens
- Clean and remove rubble from storm water drain and grids

Painting Services

We offer painting services to both private and public sector as well as residential units.

We offer great workmanship by our experienced painters coupled by expert advice with regards to paint colour and quality.

Irrigation and borehole pump systems

Our team is able to effectively manage the following, especially;

- Irrigation planning, where we give advice on irrigation requirements based on the actual types of plants or flowers water requirements on each and every season.
- Irrigation system design, where knowledge on the amount of water needed by the plants or flowers, elevation, and meteorological data provide the necessary tools for irrigation system design
- Irrigation system maintenance, where irrigation and borehole pump systems are monitored through by the Landscape Technicians and inspected by the irrigation technicians on a monthly basis.

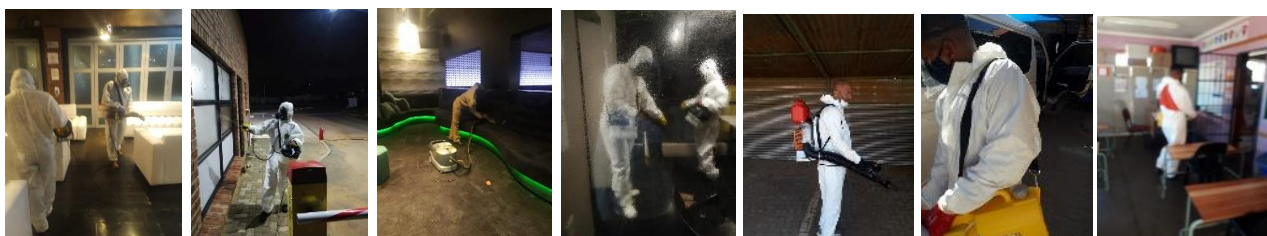

Fogging Services

Let us come and fog your offices, homes, schools, and shops – let us assist in the control against the spread of viruses, bacteria, fungi, mycoplasma, yeasts and algae.

We utilise ViruSafe Sanitizing Manufacture which is SABS approved and recognized by WHO which assists in viral and bacterial control. It is a disinfectant which has been widely used for the disinfection of areas such as offices, nurseries, schools, houses, restaurants, gyms, movie theatres, governmental institutions, vehicles and more. It is a highly effective disinfectant, yet it has very low toxicity.

Our services when it comes to fogging are of the highest quality and our clients can attest to the quality of the product, service and cost. We also offer deep cleaning.
